SUBJECT INDEX

ACTH
effect in the female lizard, 457
Adrenal(s)
androgen biosynthesis of, by a sesterterpene pathway, 485
and steroid production, in the frog, 461
effect of the intermediate filament inhibitor IDPN on steroid secretion, by frog, 465
Aldosterone
effect of Verampil, and synthesis in adrenal mitochondria, 453
interaction of, and vasopressin on vascular smooth muscle permeability to sodium, 477
new inhibitors of, synthesis, 469
nuclear receptor in kidney of chick embryo, 295
Androgen(s)
and regulation of the ocular secretory immune system, 429
effect of, on the *in vivo* metabolism of estradiol, 489
receptor, *in situ* photolabeling of human, 257
Anti-estrogen(s)
binding to estrogen receptor, immunological differences using monoclonal antibodies, 219
biology and mode of action of pure, 141
ICI 164,384, interaction with the estrogen receptor, 263
Aromatase
inhibition by the antifungal ketoconazole, 387
6-methylenandrosta-1,4-diene-3,17-dione (FCE 24304), a new anti-, 391
Avidin
molecular cloning of three structurally related genes for chicken, 17
Benign prostatic hyperplasia
effect of treatment on dihydrotestosterone and androgen receptor content in, 395
Bioflavonoid
interaction with rat uterine Type II binding sites, 71
Breast cancer
action of estrogens and anti-estrogens, on rat mammary gland, 95
a 46,000 Da antigen associated to estrogen receptors, in human, 315
and antitumorigenic agent, 325
effect of tamoxifen and tamoxifen derivatives in R-27 cell lines, 321
effects of androgen and anti-androgen on growth of, in mouse cells, 353
enhanced phosphorylation of progesterone receptor by protein kinase C, 239
growth regulatory peptide production in, 53
immunohistochemical analysis of estrogen receptors in, 337
plasminogen activators, hormonal regulation in, 79
the estrogen receptor promotion hypothesis, in preneoplasia, 105
Cortisol
effect of, on the *in vivo* metabolism of estradiol, 489
Dehydroepiandrosterone
therapeutics: acetylation of DHA in mouse liver, 149
Dexamethasone
receptor
effect on cortisol, androgen and ACTH in Rhesus monkeys, 435
inhibition of the $MtTF_4$ tumor growth by, 369
5α-Dihydrotestosterone
metabolism in pituitary cell populations, 401
Dioxin
receptor
a comparison with the glucocorticoid receptor, 277
and DNA binding, 307
Endometrial adenocarcinoma
effect of β-interferon on steroid receptors, 359

β-Endorphin
hormonal regulation of, in the testis, 347
Estradiol
action in the pituitary–testicular axis, of rat, 407
synthesis and receptor binding of polynuclear organometallic derivatives of, 301
Estrogen(s)
ATP-mediated receptor interconversion as a model of, action, 219
Estrone-sulfate
effect of tamoxifen and tamoxifen derivatives on the conversion of, to estradiol in R-27 mammary cancer cell line, 321
Flutamide
in prostate cancer, 107
Gene(s)
androgen-responsive, analysis of regulatory sequences, 47
molecular cloning of three related, for chicken avidin, 17
Vitellogenin, protein–DNA interaction from, 209
Glucocorticoid(s)
action in leukemic cells, 63
effect on arachidonic acid metabolism, 155
effects on the production and actions of immune cytokines, 89
inhibition by, of PGE_2 and ACTH secretion, 333
in lymphoid tissues, 375
receptors
endogenous proteases and interaction with the M_r 90,000 heat shock protein, 267
high-performance ion-exchange chromatography of, 281
high resolution anion exchange of, from WEHI-7 cells, 287
structure as probed by, 225
subunit composition of the molybdate-stabilized non-activated, from rat liver, 271
Glucocorticosteroid(s)
receptor
in brain of hamster, 417
in rat hippocampus, 421
Gonadal steroids
and neuropeptide Y-opioid–LHRH axis, 185
Gonadotrophin
estrogen and progesterone interaction in the control of, 169
Growth factors
effect of RU 38486 on TGFβ in lymphoid cells, 381
in human breast carcinoma cells, 53
in prostatic tumors, 341
1,25$(OH)_2$ Vitamin D_3
receptor, and biological responses in both genomic and nongenomic mechanisms, 33
ICI 164,384
interaction with estrogen receptors, 263
β-Inteferon
effect of, on steroid receptors in human endometrial adenocarcinoma, 359
Leukemic acids
mechanisms of glucocorticoid function in human, 63
Leydig cells
effects of cisplatin and bleomycin on mature rat, testosterone production, 449
ontogenesis and regulation of steroid sulfatase activity in, 439
LH
interaction between estradiol and the hypothalmo–pituitary β-endorphin system, 161
Monoclonal antibodies
immunological differences between estradiol and anti-estrogens with estrogen receptor, 213
Myeloma cells
estrogen and progesterone receptors in, 363
Neuroendocrine tissues
the cellular effects of estrogens on, 195

Progesterone
receptor
antibodies against, 1
effect of molybdate on, 245
enhanced phosphorylation of, by protein kinase C in human breast cancer cells, 239
microsomal, cytosolic and nuclear, in chick oviduct,
regulation of the secretory compartment in uterine culture, 329
Prostate
purification and characterization of androgen receptor in rat, 251
Prostate cancer
sex steroids in, 119
therapy with flutamide and castration, 107

Receptor(s)
aldosterone
nuclear, in kidneys of chick embryo, 295
androgen
in benign prostatic hyperplasia, 395
in situ photolabeling of human, 257
purification and characterization of, in rat prostate, 251
estrogen
ICI 164,384, interaction with, 263
immunohistochemical analysis of, in breast cancer, 377
glucocorticoid
a comparison with the Dioxin receptor and, 277
and association with the M_r 90,000 heat shock protein, 267
high-performance ion-exchange chromatography of, 281
high resolution anion exchange of, 287
in brain of hamsters, 417
in rat hippocampus, 421
subunit composition of the molybdate-stabilized non-activated, 37
$1,25(OH)_2$ Vitamin D_3
and genomic and nongenomic mechanisms, 33
microsomal
for steroid and nuclear activity, 23
progesterone
antibodies against, 1
microsomal, nuclear and cytosolic, in chick oviduct, 329
steroid
and the generation of closely coupled/biphasic dose–response curves, 9
vitamin D
relation to thyroid hormone receptor, 41
RU 38486
and competition with dexamethasone for receptors in the rat central nervous system, 411
and specific transcription and DNA binding, 291
effect of, on TGFβ, in lymphoma cells, 381

Sexual behavior
and genomic regulation, 179
Steroid binding globulin, 131
Steroid sulfatase
ontogenesis and regulation in Leydig cells, 443
Stromal cells
sex steroid sensitivity to, and oviduct differentiation, 473

Tamoxifen
and binding to the estrogen receptor, 213
and derivatives, effect in R-27 cells, 321
effect of, on MCF-7 tumor implanted in athymic mice, 311
Testis
hormonal regulation of β-endorphin in, 347

Thymic hormone
effect of steroids on the secretion of, in thymic epithelial cells, 479
Vitamin D
receptor, and relation to thyroid hormone receptor, 41
